Bulbs and Hand Pollenized Seed

1940 Seedling Introductions

'BLUE RUFFLES' 1-inch Bulbs, \$10.00 Small, \$3.00 Bulblets, \$.50
(Heavenly Blue x Amethyst) x (Salbach's Orchid x Ave Maria) The first blue introduction with well ruffled and wavy petals. The color is unusually fine for this color class, being entirely devoid of the dullness common to most blues. Up to eight 4 - 4½ inch florets open in double row on 16-18 bud spike which is straight as a ramrod. Substance very good. Pollen fertile and has given me a number of exquisite light blues also ruffled. Healthy grower and average propagator but stock is still limited.

'FINLANDIA' Large, \$3.00 Medium, \$2.00 Small, \$1.00 Bulblets, 10 - \$2.00
(Inspiration x Picardy) One of my greatest favorites among my seedlings but a color hard to describe: a very deep rich salmon self, not a pink-salmon, but closer to a red-brown-salmon but still a self color. Color, texture and substance close to ideal. Opens 8-10 five-inch florets on fine spike.

'CADET' Large, \$1.00 Small, \$.50 Bulblets, 10 - \$1.00
(Miss New Zealand x Rosemarie Pfitzer) A light pink with small red feather. Up to eight 5 - 5½ inch florets open on straight stiff spike. Floret arrangement and spike is so precise and perfect that a spike in bloom suggests nothing so much as a cadet frozen at attention. I want to continue to introduce each year a really good glad at a low price so have placed a low price on 'Cadet.'

'KALUAH' Premium — a Free Bulb on All \$5.00 Orders
(Mauve Royale x Picardy) A huge, waxy, misty pink with a soft mauve throat mark. Up to six 6-inch florets open on tall spike which, however, often crooks. In spite of this fault, the grand color of this seedling has prevented me from discarding it — so I offer is as a free premium, confident that a color cool, soft and serene as 'Moonlight in Kaluah,' will be appreciated.

'TANTALUS' Premium — a Free Bulb on All \$2.00 Orders
(Gate of Heaven x Picardy) A rich gold and orange with 9 - 10 ruffled florets open on straight spike. Stunning when at its best but at times gives some short spikes. Because of a large stock, I want to give this a wider trial and would appreciate reports on its performance.

FRAGRANT SEEDLING 338-5F 1-inch Bulbs, \$1.50 Small, \$.50 Bulblets, 3 - \$.50
Incense Seedling. Fragrance sweet and lasting. A ruffled, clear, yellow Prim Grand with good substance. Five open on four foot spike.

1939 Seedling Introductions

'Battleflag' — Large, \$1.50; Medium, \$1.00; Small, \$.50; Bulblets, 10 - \$1.00, 100 - \$7.50. (35-65) Marmora x Moorish King)
A dark red that, however, is flashingly brilliant for a deep color, differing in this respect from any other deep red with which I am familiar. Spike and florets resemble Marmora with five to six 5 - 5½ inch florets open on fine straight spike 4½ to 5 feet tall. Its height and distinct color is suggestive of its name, for it stands out just as vividly in the field. Healthy grower and good propagator.

'Carved Ivory' — Large, \$1.50; Medium, \$1.00; Small, \$.50; Bulblets, 10 - \$1.00, 100 - \$7.50 (Rosemarie x Picardy) Sister seedling of Gaiety, but a clear warm white self. A round, wide petaled floret of very heavy substance. Five-inch florets with five to six open on tall rugged spike. The floret and spike habits make this variety equal to any white on the market. Add to this that it blooms very early and you have a white that any cut flower grower will value. Healthy and a rapid propagator.

'Cynara' — Large, \$1.00; Medium, \$.60; Small, \$.30; Bulblets, 10 - \$.50, 100 - \$4.00 (35-38) (Erica Morini x Picardy) An unusual clear cerise pink self, with small blue toned throat mark. Up to six 5-inch florets open on tall and willowy straight stem, making it ideal for cutting. Its unusual and beautiful color and good stem have made a hit with local florists as well as other visitors. Healthy and strong grower and a very rapid propagator.

'Fantasia' — Large, \$1.00; Medium, \$.60; Small, \$.30; Bulblets, 10 - \$.50, 100 - \$4.00 (Seedling x King Arthur) A melting medium pink self of irresistible color. Small deeper feather in throat; petals thick and very heavily ruffled. Up to six 4½ - 5 inch florets open on very straight spike. Not as tall as most of my other seedlings, but will average 3 to 3½ feet. Healthy and a fine propagator. Fantasia is larger than any other heavily ruffled pink I know.

'Gaiety' — Large, \$1.50; Medium, \$1.00; Small, \$.50; Bulblets, 10 - \$1.00, 100 - \$7.50 (36-61) (Rosemary x Picardy) Another variety which attracts first by its distinctively beautiful color. Crisp, glistening white which harmonizes rather than contrasts with the clear scarlet feathery blotch. The very heavy ruffling and thick substance add to its beauty. Five to six 4½ inch florets open in fine double row on tall straight spike, ideal for cutting. A variety which I feel outclasses anything else in similar color. Good grower and propagator.

'Jimgrim' — Large, \$1.50; Medium, \$1.00; Small, \$.50; Bulblets, 10 - \$1.00, 100 - \$7.50 (35-53) (Wuertembergia x Picardy) A huge flashing scarlet whose size and color are accented by the huge snowy white throat. Four to five 6 inch florets open on straight, medium tall spikes. This comes from a cross which, by report, has produced outstanding seedlings for three or four breeders, chief of which is F. O. Chamberlain's "Caroline Werner Gannett," a grand smoky which will make history. The huge florets and striking color of Jimgrim never fail to attract attention.

'Rimmon' — Large, \$3.00; Medium, \$1.50; Small, \$.50; Bulblets, 10 - \$1.00 A very tall deep velvety rose-red with 6 - 7 ruffled 4½ inch florets open. One of the finest in this color and well liked by those who grew it as a trial bulb last year. Received an Honorable Mention at The Empire State Show in Ithaca in 1936.

'Rendezvous' — Large, \$5.00; Medium, \$2.50; Small, \$1.00; Bulblets, 10 - \$2.00 (Inspiration x Picardy) A lovely buff-pink with a deeper edge, resembling Lotus in color, but opening about 10 florets in perfect double row arrangement, making a perfect cut flower.

Fragrant Seedling Introductions

'Summer Breeze' — Large, \$3.00; Medium, \$2.00; Small, \$1.00; Bulblets, 10 - \$2.50. First Prize, Fragrant Class, 'Gardens on Parade,' World's Fair, New York City. (1938) (Seedling 36-22F) (Mibloom x Triumph) x (Mibloom x Mammoth White) A fragrant rich pink Prim Grand with heavily ruffled petals of heavy substance. Opens four to five 4-inch florets on a medium tall spike. Fragrance is sweet and rose-like, strong and persistent, throughout the day. A distinct advance in fragrant glads. Stock still scarce. Summer Breeze and Honeysuckle are not chance fragrant seedlings, but were developed by selective crossing with the direct aim of increasing fragrance, with the result that these two seedlings are the third successive generation in which fragrance appears. Healthy grower and good propagator.

'Honeysuckle' — Large, \$1.00; Medium, \$.50; Small, \$.30; Bulblets, 10 - \$1.00 (1938) (Seedling 36-43F) (Sister seedling of Summer Breeze) Carries a spicy fruity fragrance like that of some hybrid tea roses. Not quite as fragrant as Summer Breeze. A deep pink with an orange tone, somewhat ruffled, good substance, four 4-inch florets open on a medium tall spike. Healthy grower and a rapid propagator. Stock limited.

'Joli' — Large, \$2.00; Medium, \$1.50; Small, \$.75; Bulblets, 10 - \$2.00 (1937) (Triumph x Mibloom) Sweetly and persistently fragrant. Fragrance is rose-like and noticeable within a few feet of the plant, constantly present during the entire blooming season of this variety. Color is light pink with a vivid orange-scarlet blotch. Five 4½-inch florets open on a tall slender stem. Good propagator, but stock is limited. This variety seemed more fragrant than ever this past season, the fifth season that we have had it in bloom. Pollen is fertile, but does not bear seed well.

'Seedling 34-2F' — Large, \$.30; Medium, \$.20; Small, \$.10; Bulblets, 10 - \$.25 (1937) (Mibloom x Triumph) Light bright red self of Triumph type, but with more slender stem. Tall with four 4½ to 5 inch florets open. This past season this was much more fragrant than heretofore. One of the parents of Summer Breeze and Honeysuckle.

'Seedling 36-58F' — Large, \$.75; Medium, \$.50; Small, \$.25; Bulblets, 10 - \$.50 (1939) Sister seedling of Summer Breeze. Not quite as fragrant but taller and our best red seedling showing fragrance. Opens six ruffled 4-inch florets on a 4½-foot spike.

'Seedling 37-2F' — Large, \$.35; Medium, \$.25; Small, \$.15; Bulblets, 10 - \$.25 (Star of Bethlehem x Incense) Deep cream, lavender feather, fruity fragrance. Five medium sized florets open on very tall spike.

Former Seedling Introductions

		BULBS			BULBLETS		
		Large	Medium	Small	10	100	1,000
'Chrysalis' (1937) (Albatross x Othello)	1	\$1.00	\$.60	\$.30	\$.50	\$4.00	
A pale blue of clear sparkling color, with a small true blue throat mark. Strong grower, five feet tall, with up to nine 4½ inch florets open in good double row placement. An unusually fine exhibition variety in this color. Average propagator. Healthy grower. Chrysalis is invariably spotted by visitors in the field, for its clear color and striking spike.							

'Coralie' (1937) (Mrs. Sisson x Coryphee x Nuthall)	1	1.00	.60	.30	.50	3.00	
	10	7.50	4.00	2.00			
Glistening pure pink of rich tone. Throat shades a bit lighter with a thin pink thread line. Somewhat ruffled, wide open, round 6 inch florets. Five to six open on a tall willowy, but always straight spike. An unusually beautiful variety, a hoped for combination of the good points of its famous parents. Good propagator. Won a Vote of Commendation at the Maryland Gladiolus Society Test Garden in 1938.							

'Euphony' (1938) (Picardy x Wasaga)	1	.50	.35	.25	.30		
Shades of deepest apricot and salmon, almost tan, with a faint rose blotch. Midribs touched with a deep lavender suffusion, back of petals flushed a smoky lavender. These colors blend with all the subtlety found in some of the newer iris blends, a feature not common in glads. Five 4-inch florets open on a good spike which, however, sometimes crooks. Florets somewhat ruffled. Very rapid propagator.							

'Fortune' (1937) (Moorish King x Rapture)	1	1.00	.60	.30	.50	4.00	
	10	7.50	4.00	2.00			
Very deep rich pink of even tone. Heavy light red lines in throat. Six to seven 6-inch florets open in perfect placement on a 5½-foot spike. Extra strong and husky grower and never crooks. Heavy and lasting substance. Florets and spike have the general form and size of Picardy. Its large size makes it an exhibition variety but it has all the qualities of a perfect commercial, and promises to rank with Picardy, Minuet and Nuthall as a cut flower. Blooms about two weeks before Nuthall. Good propagator. Vote of Commendation, 1937, Maryland Gladiolus Society Test Garden.							

'Jacinth' (1938) (Ramesses x Picardy)	1	.75	.50	.25	.40	3.00	
	10	5.00	3.50	1.50			
A warm orange blend with lavender suffusion which produces a captivating play of color. Six to seven wide open 4½-inch florets open on a fine straight spike. Makes a very reliable cut flower in this color class. Rapid propagator and healthy grower. Substance is heavy and lasting. Jacinth has given us some very fine seedlings in vivid orange and orange-yellow tones. Won a First in the Open Orange class at the Empire State Gladiolus Show at Syracuse this Summer, even though the spikes shown were from small bulbs and far from representative of this variety.							

'Man o' War' (1938) (A seedling of Com. Koehl and Mrs. Errey)	1	1.00	.60	.30	1.00		
A glad with a brighter and lighter color than Com. Koehl. Spike very tall and very straight and up to even 5-inch florets open in very good arrangement, making an unusually well balanced spike. This was shown in the seedling class in 1936 at Ithaca, where it received an Honorable Mention, as well as much favorable comment from growers. A very strong and healthy grower, giving many bulblets which germinate easily and make unusually large growth. I believe this will prove a valuable cut flower as well as an exhibition variety.							

'Mauve Royale' (1937) (Moorish King x Rapture)	1	.20	.15	.10	.25	1.00	
An unusual color in glads, in fact, in any flower. A very rich royal mauve self with a small white throat. The color is many shades deeper than any mauve that I know and hard to visualize without seeing. Very large florets between 5 and 6 inches with 5 or 6 open on a medium tall stem, which has a bad habit of crooking, especially from larger bulbs. Bulblets bloom freely on good sized and straight spikes. In breeding for lavenders and mauves this has proven a reliable parent, the striking point in these seedlings being the huge size inherited from Mauve Royale.							

'Nola' (1937) (Marmora x Apricot Glow)	1	.20	.10	.05	.10	.50	\$3.50
	10	1.50	.75	.45			
	100	12.50	6.50	3.50			
An unusually deep pink with no trace of rose, white midribs on lower petals. Five-inch florets with 6 to 7 open on a tall, husky, straight spike. Another variety that has all the requisites of a perfect cut flower. Very rapid propagator. I noted a pleasing color variation in this variety this Summer, for many spikes showed a soft gary throat blotch, which made a most unusually and attractive color combination.							

'Seven Seas' (1938) (335-101)	1	2.00	1.00	.50	1.00		
An unusually attractive tone in the medium blue shades with a very subdued throat make of same shade on slight white feather. A slightly deeper flecking as well as a suggestion of blue green blend in its ground color gives the appealing effect of sea green depths. Spike is tall and straight with up to seven 5-inch florets open in very fine double row arrangement. Its color and spike habits make Seven Seas the best cut flower blue I know. Another very valuable feature of Seven Seas is its ability to stand up perfectly under heat intense enough to cause every other blue that I know of wilt badly. Rapid propagator and very healthy grower.							

'Shalimar' (1937) (Cuthbertson x Mammoth White)	1	.50	.30	.15	.25	1.50	
	10	3.50	2.00	1.00			
A huge pure white with a rich green yellow blotch which fades after flower opens. Grows larger with us than Star of Bethlehem, but like that variety its stem is a bit too limber to support the flower head when eight immense florets are open. Round wide open florets, somewhat ruffled. Thick heavy substance. Blooms well from medium and smaller sizes.							

		BULBS			BULBLETS		
		Large	Medium	Small	10	100	1000
Abe — Resembles a pink Nuthall. Fine	1	\$.50	\$.25	\$.15	\$.40		
Admiral — Brilliant scarlet, darker blotch	1	1.25			1.50

	10			.30			
Century Lavender — Large lavender	1	1.00	.75	.50	1.00		
Cherokee — Good early rose with blotch	10	.75	.50		.10	.50	
Changeable Silk — Light rose pink, extra	1			2.00	.50 each		
Camellia — Beautiful shell pink	1	.35	.20	.10	.25		
Chaumony — Ruffled cerise rose, a winner	1	1.25	.75	.50	.30		
Gem of Sparta — Very large warm apricot	1	.25	.15	.10	.25		
Gloaming — New purple, fine cut flower	1	.15	.10	.05	.10	.40	
Hansel — Frilled clear yellow	1	4.00	3.00	2.00	2.00		
Hercules — Giant buff, very strong grower	10	.50	.30	.20	.10		
Heiligtum — Very large pure white	1		.15	.10	.15		
Hindenburg's Memory — Giant black red	1		1.00	.75	1.50		
Isola Bella — Pastel lavender, good spike	1	.15	.10	.05	.10	.40	2.00
	10		.60	.30			

James Fitzjames — Brilliant red, extra	1	.75	.50	.25	.50		
King Lear — Outstanding ruffled purple	1			.75	2.00		
Komiri — New unusual pink. Strong grower	1	.50	.35	.20	.50	3.00	
La Fiesta — Tall vivid orange	1	.15	.10	.05	.10	.50	
Leschi — Extra fine dark velvety red, open on straight spike ..	10	.60	.40	.25		.50	
	100			2.00			
Margaret Beaton — Grand cream white, scarlet blotch, a win- ner everywhere	1			.40	1.25		
Miss New Zealand — Giant rich pink	10	.75	.40	.20		.35	2.50
Ninth Symphony — Vivid salmon red	10	.75	.50	.30		.35	
Okarina — Smoky lavender, fine grower	1	.20	.10	.05	.10	.50	
	10		.75	.40			
Pfitzer's Masterpiece — Pink; many open	1	.25	.15	.10	.15		
Phar Lap — Giant pink 8-10 open50	1.50		
Pititi — Apricot salmon up to 12 open	10	.50	.30	.20		.25	
Prairie Gold — Richest deep yellow	10	.50	.30				
Red Giant — Giant rose red, good	1	.30	.20	.10	.20	1.50	
Rewi Fallu — Giant blood red	10		.40	.20	.10	.50	
Robert Burns — Strong growing dark blue	1	.25	.15	.10	.20		
Rose Lady — Mahogany rose, rich color	10	.75	.50	.30		.50	
Royal Gold — Fine new yellow, 10 open	1	.25	.15	.10	.20		
Royal Omar — Ruffled clear rose; a beauty	10	.75	.50	.30		.50	
Rudolph Serkin — Rich violet blue	1	.25	.15	.10	.20		
Rosalie — Beautiful clear lavender; seems a real find in this color	1	.50	.30	.20	.15	1.00	
Resolution — Tall ruffled scarlet	1		.50	.30	.50		
Sahara — Light brown, many open	1	.20	.15	.10	.15		
Takina — Light violet red, very large	10	.75	.40	.20		.30	
Tunia's Blue — Very large deep blue	1		.60	.40	.50		
Tunia's Triumph — Deep scarlet self	1			.30	1.00		
Vagabond Prince — Deep red brown	10	.60	.40	.25		.25	
Wings of Song — Extra fine deep pink	1		1.00	.50	1.00		
Whero — fine brilliant deep red	10		.40	.20	.10	.40	

Hand Pollenized Seed

My list of hand pollenized crosses is considerably smaller this year due to lack of time to make as great a number of crosses. I therefore suggest that seed orders be sent in early.

The fragrant character showed considerable advance in this year's seedlings both in the more frequent occurrence and in greater intensity. Perhaps the most outstanding seedling of this type was 39-63F which, from its first blooming, could be compared to the average rose in fragrance.

Price per 10	No. of Cross	
\$.50	1	39-12F x Joli

Used in Above Crosses

38-20F (Joli Seedling) Pink fragrant. 38-29F (Summer Breeze x Incense) Tall pink with good fragrance. 39-12F (Joli seedling) Fragrant pink. 39-17F (Summer Breeze x Picardy) Deep pink fragrant with long spike. 39-18F (Summer Breeze x Picardy) Fragrant pink on good spike. 39-25F (Picardy x Summer Breeze) Fragrant large pink, strong spike. 39-39F (37-2F x Summer Breeze) Small florets but strong sweet fragrance. 39-59F (New Era x (Sowden x Incense) Tall pink with good fragrance. 39-63F (Summer Breeze x 337-18F; a sister seedling of Summer Breeze) Our most fragrant seedling as well as the most intensely ruffled variety I know, a rich pink and cream. 39-74F (New Era x Summer Breeze) Tall pink; fine fragrance. 39-92 (Picardy seedling) Deep rose pink self, intensely ruffled, large. 339-3F (Joli x Summer Breeze) Very fragrant light pink. 339-4F (Summer Breeze x Incense) Small but very fragrant smoky pink.

I've had the opportunity to have some seed treated with exposure to X-ray and offer part of these as follows:

Mixed seed from Summer Breeze crosses 10 -	\$.75	25 -	\$1.50
Mixed seed from large flowered crosses 10 -	.50	25 -	1.00

These were grown from the bulblets produced with the seedling bulbs from seed. None of these offered for sale have bloomed so no selections have been taken from them. Sizes will run from medium to small.
